AND NOW A WORD FROM CAPTAIN SAFETY

Safety Education

We all ride motorcycles for the enjoyment of the open road. I personally have three reasons, and I am sure that most of you feel the same. One is for the enjoyment of riding the open road with my sweetheart close behind. Secondly, the safety, friendship and enjoyable company that the group provides. Thirdly, is I Gotta Eat and Love to Eat.

For all those reasons, and more, is the topic of this month's article. An anonymous quote was given to me by Pat Duquette which sums up the role of the Chapter Educator and is a one sentence view of our Chapter Educators heartfelt philosophy of Safety Education.

"Asking me to overlook a simple safety risk would be asking me to compromise my entire attitude toward the Value of Your Life"

Every time we ride, we take on a certain amount of risk. The amount of risk is dependent upon attitude, skill level, road conditions, to name a few, and not to be overlooked, safety preparedness. In the years 1998 through 2003, 1,238 motorcycle fatalities occurred in Florida. Of the 1,238 fatalities, the number of those whom had not taken a riding course was 1,238. You do the math. This is not to say that if one takes a rider course, he or she is automatically guaranteed not to be a statistic, but it sure doesn't hurt.

Likewise, the purpose of the Chapter Educator is not force you to be safe, but to provide you with tools, observations, constructive criticism, etc., in order to help your riding experience of the open road be more enjoyable, to help ensure that there are more friends to provide fun and company for each other, and help ensure that the restaurant economy flourishes.

Our Chapter Educator, Mike, as well as other educators throughout the organization, simply lay tools on the table for you to look over, think about, pick some up, or leave some of the tools where they lay. The choice is ours. Never feel that you are being criticized unfairly, but look upon it as someone caring enough to care.

Simply listen. All else will come.

Ride safe and ride often.
